

FOR IMMEDIATE RELEASE

Halco Lighting Technologies®

High Performance T8 Systems

Available in Standard and Low Ballast Factor

Norcross, GA. April 2010 – Halco Lighting Technologies’ ProLume® High Performance multi-volt ballasts allow for more efficient operation compared to standard electronic ballasts. When paired with a ProLume, high-lumen lamp, ProLume High Performance ballasts provide more light output at a lower input wattage and produces greater than 90 mean lumens per-watt. These high performance ballasts are designed with a micro-can housing that’s 16% smaller than standard electronic ballasts. ProLume lamp and ballast systems are CEE qualified and can reduce lighting costs and energy consumption by as much as 20%. The ballasts are backed with a 5-year warranty.
